October 22, 1960.

Hon. John F. Kennedy.
Senator of the United States of America.
Washington, D. C.

Your Excellence:

According to one of your interviews with Mr. Nixon T.V. broadcasted by the Associated Press, you emphasized the thesis that the Policy of the present Administration towards Cuba had been erroneous and you stated among other things— that "Batista's dictatorship had killed more than twenty thousand Cubans in seven years".

Allow us to emphasize you our concern upon your assertion. Always we have believed that International Communist propaganda could only be efficient among men that, by reasons of their culture and occupations were ignorant of the tricks systematically used by said organism in order to twist the truth upon persons and situations. Now we note that even a presidential candidate of the United States of America, id est, the singular citizen that may be chosen to direct the leader countries in the planetary struggle against Communism, is another victim of their lies. And our concern is greater about this case, because the countersign on twenty thousand killed —stated in a Fidel Castro speech and spread by his propaganda machinery has been contempetd by the majority of our fellow citizens. Indeed, as it is not possibly to fool all the people all the time, the Cuban people already know that the creator of such countersign was Dr. Rafael Rodríguez, one of the most outstanding directors of the Communist Party in Cuba and who has actuated as Fidel and Raúl Castro's adviser even before they could have conquered power.

It is also of your convenience, to know that a commission formed by "Castrists" not communist engaged themselves on the task to locate the "twenty thousand killed". Such commission that initiated with excesive praise and noise its researches, was silently disolved when it could not find even one thousand victims in both sides, and when besides, it proved that the greatest portion was a result of their own followers terrorism. Furthermore,

discurso del comandante

RAUL CASTRO

- El deporte es un reflejo del régimen social.
- El profesionalismo, en el deporte, es incompatible con un régimen socialista.
- El deporte en el socialismo es masivo y tiene la participación del pueblo.
- El deporte socialista es un medio. En el capitalismo es un fin. El fin del lucro.
- Nosotros daremos, en estadios gigantescos, monumentales demostraciones de deporte masivo.
- Nosotros queremos y lograremos un pueblo de campeones.

BOLETIN INFORMATIVO

5 - MAY 1 8

1 DE MAYO

LOS trabajadores y el pueblo de Cuba, que después de conquistar el Poder Revolucionario se hallan en el arduo pero dichoso proceso de la edificación socialista, van a celebrar la gran fiesta internacional del trabajo dentro del marco adecuado de orgullo y júbilo, de combatividad creadora, que únicamente es posible mediante la abolición de la explotación del hombre por el hombre, en un régimen socialista, donde gobierna la clase obrera y han pasado a ser de su absoluta propiedad colectiva todos los bienes materiales de producción.

Al igual que la histórica 2da. Declaración de la Habana es un análisis y una denuncia definitiva del yugo y las maniobras imperialistas yanquis, y un llamamiento de unidad y lucha para todos los hermanos pueblos de América, la extraordinaria movilización de los trabajadores y el pueblo de Cuba este próximo Primero de Mayo, a través de todas las ciudades y puntos de concentración masiva, habrá de constituir otro mensaje de irradiación continental, que galvanizará toda la fe, toda la esperanza toda la fuerza insobornable y avasalladora de las enormes muchedumbres campesinas y obreras dispersas por todas las tierras irredentas de América.

La lucha por la paz, y la fuerza de la solidaridad mundial del proletariado, alcanzarán este próximo Primero de Mayo su más alta y cabal expresión en todo el planeta, frente a la soberbia guerrerista y la desvergonzada amenaza de cataclismo nuclear que plantean a la humanidad los últimos y más agresivos reductos del imperialismo decadente.

Los trabajadores de la aviación, como importante núcleo del pueblo cubano, integraremos este Primero de Mayo —fiesta del trabajo socialista en nuestra Patria— la gigantesca movilización, sin paralelo en la historia social de nuestro país, que encabezará nuestra CTC Revolucionaria.

¡Por la paz! ¡Por la amistad y solidaridad de todos los pueblos y el proletariado del mundo! ¡Por la libertad, soberanía e independencia de América Latina! ¡Contra el dominio imperialista yanqui y todos los colonialismos! ¡Contra la carrera armamentista y la amenaza de conflicto nuclear mantenidas por el gobierno yanqui! ¡Por el fortalecimiento y avance de nuestra Patria Socialista! ¡Viva el Primero de Mayo! ¡Patria o Muerte! ¡Planificando venceremos!

"...UNA PALIZA TODAVIA MAS GRANDE QUE LA DE PLAYA GIRON, VENGAN SUS MERCENARIOS O VENGAN ELLOS" — FIDEL.

DECLARA

FROM THE PEOPLE OF CUBA TO THE PEOPLES OF AMERICA AND OF THE WORLD

ON the eve of his death, in a letter he never finished because a Spanish bullet pierced his heart, José Martí, apostle of our independence, wrote his friend Manuel Mercado on May 18, 1895: "Now I can write. . . Each day I am in danger of giving my life for my country and for my duty . . . to halt in due time, as Cuba acquires its independence, the spread of the United States over the Antilles so as to descend, with that added strength, upon our lands of the Americas. Whatever I did until today and will do in the future, is for that . . . The same minor and public obligations of the nations most vitally interested in preventing the opening in Cuba, through its annexation by the imperialists, of the road that must be barred, and which we are barring with our blood, of annexation of all the nations of our America, by the violent and brutal North which despises us, the same obligations have prevented the clear support and definite help for the sacrifice that is being made for the immediate good and for them. I have lived in the monster and I know its entrails; and mine is the sling of David".

Martí, as far back as 1895, pointed to the danger hanging over America and called imperialism by its name: imperialism. He warned the peoples of America that they, more than anyone, were obligated that Cuba not yield to the greed of the Yankee who despised the peoples of Latin America. With his own blood, shed for Cuba and for America, he endorsed the posthumous words which today the people of Cuba endorse at the beginning of this Declaration, as homage to his memory.

Sixty-seven years passed. Puerto Rico was converted into a colony and still is a colony in contrast to feudalism's outworn ideas. The peasants, the craftsmen and the manufacturing workers, headed by the bourgeoisie, destroyed the feudal order, its philosophy, its ideas, its institutions, its laws and the privileges of the dominating class, that is, the hereditary nobility.

The bourgeoisie then considered revolution a just and necessary thing. It did not believe the feudal order could and should be eternal, as it now believes its capitalist order to be. It encouraged the peasants to free themselves from serfdom, encouraged the craftsmen to break guild relations and claimed the right to political power. The absolute monarchs, the nobility and the high clergy tenaciously defended their class privileges, proclaiming royalty's divine right and the indestructibility of the social order. To be liberal, to proclaim the ideas of Voltaire, Diderot or Jean Jacques Rousseau, spokesmen for the bourgeois philosophy, was a crime as serious as it is today for the bourgeois to be a socialist and to proclaim the ideas of Marx, Engels and Lenin.

When the bourgeoisie got political power and established the capitalist means of production upon the ruins of feudal society, it built its State, its laws; its ideas and institutions based on its methods of production. These institutions, in the first place rendered private property sacred: the essence of its class domination. The new society based on private ownership of the means of production and on free enterprise, thus divided people into two basic classes: one that owned the means of production, that became more modern and efficient with time; the other, deprived of all property, owning only its own labor power, was forced to sell that power in the market just as any other product In order to subsist.

Once the feudal ties were broken, the productive forces developed greatly. Big factories appeared, where the numbers of workers grew greater constantly.

More modern and technically efficient factories displaced less efficient competitors in the market. The cost of industrial equipment rose higher all the time; it was constantly necessary to accumulate greater amounts of capital. An important part of production accumulated in a smaller number of hands. This was the beginning of the great capitalist enterprises and later on, the association of the great enterprises through cartels, syndicates, trusts and partnerships. There developed on all

anarchy in production, the waste, the economi crisis and the plundering wars inherent in th capitalist system. The growing requirements c the human being and the possibility of satisfy ing them, demanded the planned developmer of economy and the rational use of its mear of production and its natural resources.

It was inevitable that imperialism an colonialism should enter into a deep and un escapable crisis. The general crisis began righ after the First World War; the revolution c the workers and peasants overthrew the Czaris empire in Russia and, under the most difficul conditions of blockade and capitalist aggressior established the first socialist State in the world thus beginning a new era in human history Since then and up to the present day, th crisis and corruption of the imperialist syster have deepened incessantly.

The Second World War was unleashed b the imperialist powers. Criminally invaded, th Soviet Union and other nations of Europe an Asia were dragged into a bloody fight fo freedom. The war ended with the defeat o fascism, the formation on a world scale o socialism, and the struggle for sovereignty by the colonial and dependent nations. Betweer 1945 and 1957, over 1 billion 200 million human beings attained independence in Asi and Africa. The people's blood was not shec in vain.

The movement of the dependent anc colonialized peoples is a unstoppable phenomenor shaking the world. It marks the final crisis o imperialism.

Cuba and Latin America form part of the world. Our problems form part of the problems which stem from the general crisis of imperialism and the struggle of the subjected peoples; the clash between the world being born and the dying world. The hateful and brutal campaign launched against our country expresses the desperate but useless efforts of the imperialists to prevent the liberation of the peoples. Cuba especially hurts the imperialists. What is behind Yankee hatred of the Cuban Revolution? What could rationally explain the plot which unites the wealthiest and most powerful imperialist power of the contemporary world, and the oligarchies of the entire Continent, in the same aggresive purposes? Together they represent a population of 350 million human beings, against a small nation of only 7 million inhabitants

U N A R E

TO THE AMERICAN PEOPLE

The actual happenings in Cuba and in the American Continent are one and the same thing. These events can not be separated. The permanence in Cuba of a communist regime is the cause of subversion in Latin America. Fidel Castro, time and again, has publicly confessed his decision of turning Latin America into another Viet-Nam. The recent death of "Ché" Guevara in Bolivia should be enough proof of that. The existence in Cuban soil of missiles capable of striking cities in Southeastern United -- States is a well known fact. At this very moment there are confirmations of a new Soviet military build-up in -- Cuba. There should no be a doubt in anybody's mind that American authorities are well aware of this. But significantly there exists a curtain of silence in what regards the Cuban situation on the part of both the Administra- - tion and the State Department.

Latin America, since it became free from Spain has symptomatically suffered from dictatorships and corrupted governments. This internal shortcoming has coinci-- ded with an often mistaken procedure on the part of the State Department. With a few honorable exceptions the State Department has preferred to support local dicta-- tors that calling themselves "anti-communists" have acted like satraps thus alienating the traditional friend- - ship of our people for the United States whom the anti-- americans rightly brand of protector of "strongmen". - Communism has taken advantage of these mistakes to revive the phantom of "yankee imperialism" while the revolutionary democratic forces of Latin America have been painted by them as "lackeys and bootlickers of Uncle Sam". mainly because these forces have gallantly stood besides

MAJOR JOSE DUARTE OROPESA

José Duarte Oropesa, a Cuban by birth, was educated in his native country and in the United States.

While attending College, in Virginia, he volunteered to serve in the U. S. Army in World War II and was honorably discharged after combat service in the South Pacific. He returned to Cuba in 1946 and while attending the University of Havana, where he mastered in the Social Sciences, he became connected with Fidel Castro, then a student of the Law School. Both were members of the Ortodoxo Party, an organization founded by Eduardo Chibás, a fiery young Senator who shot himself immediately after a broadcast in which he made a passionate appeal to Cuban consciences to awake from their apathy in the face of government corruption.

Upon Batista's "coup-de-etat" in March 1952, just three months before the scheduled general elections, that according to surveys made were to take the Ortodoxo Party to power, he returned to the United States and engaged in the smuggling of arms to Cuba's rebels until caught, indicted and sent to prison in New York accused of violating the Neutrality Law. Once released he escaped to Mexico, by way of swimming across the Rio Grande, to avoid being deported to Cuba by Immigration authorities.

Persecuted in Mexico for his anti-Batista activities he fled to Costa Rica in early 1954 and there became involved in a plot to overthrow the late dictator Somoza, of Nicaragua. Forced to leave Costa Rica he trekked across Central America and from Yucatán, Mexico, entered Cuba, clandestinely, in mid 1954. From that date until a general amnesty was granted in mid 1955 he lived underground and had several encounters with Batista's police that left him with some scars to show for it.

THE COMPLETE WORKS OF "UNARE"

Cosmology, by Major José A. Duarte Oropesa.
Continental Prologue of The New State, by Dr. Angel Cuadra Landrove.
Manifest-Program of The New State, by Major José A. Duarte Oropesa.
Doctrinal Texts of "UNARE", by Major José A. Duarte Oropesa.
Historical Essay on Cuban Literature, by Dr. Angel Cuadra Landrove.
Martiology, by Major José A. Duarte Oropesa.
Cuban Historiology, by Major José A. Duarte Oropesa.

Cosmology is our philosophical vision of the Universe - and of Man -a microcosm within a macrocosm- and the fundamental principle of what we consider to be "Christian Humanism". In it an analysis is made of the material development of the Universe until the apparition of Man on Earth. - In the same way that we accept scientific proofs that demonstrate the veracity of organic evolution we conclude that where Science is not capable of explaining the mistery of - certain "revolutionary" evolutions of matter we can deduce the presence of a metaphysical entity. We believe that this "revolution of the World" is equal to the thinking processes of Man. If in the material development of the Universe the human being is its final phase, Man, in turn, is of itself -- the beginning of a sociological Universe that has, as its -- final phase, the constitution of The New State. We believe that the political conception of brotherly love inherent to a democracy emanates from The Gospel and is the revelation accepted by Christianity, regardless of clerical affiliation. The New State is the realization of Christian Social-Democracy.
